

FIREBLOCK

LITHIUM

Today we find lithium batteries in almost every household in the form of cell phones, laptops, hybrid or electric cars (EV), UPS, solar systems (lithium solar batteries) RV/Campers, electric scooters, bicycles and golf carts, torches and a variety of other items.

Due to the presence of lithium batteries in our lives, there is a large chance of having to deal with one of these batteries catching alight in your day to day life.

FIREBLOCK LITHIUM STOPS AND PREVENTS THERMAL RUNAWAY

FIREBLOCK LITHIUM comes in the form of fire extinguishers which can be used on small to medium lithium battery fires.

Also available in 1000L Flow bins for fire departments and can be used on normal pump systems.

FIREBLOCK LITHIUM IS THE RECOMMENDED PRODUCT ON THE MARKET THAT SUCCESSFULLY:

- Extinguishes Lithium Battery Fires Large and Small, from Mobile Phones to EV's
- Stops and prevents Thermal Runaway
- Is Non toxic and Environmentally safe
- Is a super cooling gel

**IT IS NON-TOXIC
AND
ENVIRONMENTALLY
FRIENDLY**
