

**FIRE DESTROYS LIVELIHOODS  
FIREBLOCK IS STRONGER THAN FIRE!**

**EASY  
TO  
USE**

**VISIT [WWW.FIREBLOCK.CO.ZA](http://WWW.FIREBLOCK.CO.ZA)**

**FIREBLOCK IS A UNIQUE, EFFECTIVE FIRE RETARDANT IN POWDER FORM,  
FOR USE IN AGRICULTURAL, MINING AND DOMESTIC SETTINGS.**

This patented, proudly-South African product is set to revolutionise the way runaway (or planned) fires are managed, saving lives and livelihoods across the world.

## **WHAT IS FIREBLOCK?**

FIREBLOCK is a **non-toxic fire retardant** that is packaged and distributed in a powder form, reducing transport costs and storage requirements. Unlike other fire retardants which remove the oxygen, FIREBLOCK works by **penetrating the fire, removing the heat and stopping it dead in its tracks.**

## **FIREBLOCK AGRI**

» Scan QR for instructions

- » Safely creates firebreaks
- » Spray directly on uncontrolled fires to extinguish them
- » Protect livestock, assets & homes
- » Used with back packs, fire tankers & irrigation systems
- » Technical data sheet at - [https://fireblock.co.za/fireblock\\_agri.html](https://fireblock.co.za/fireblock_agri.html)

## **WHY FIREBLOCK?**

- » Portable solution: water added on-site
- » 100% biodegradable
- » Safe for livestock to ingest
- » Retains moisture when sprayed on crops
- » Not only prevents fire but extinguishes it too
- » Stops embers from reigniting
- » Protects homesteads and livelihoods
- » Long lasting storage life even if made into a gel
- » Cost effective; less than 10c per square meter
- » Can be kept on hand, already mixed, for instant use
- » Can be made in bulk (stored) & decanted as required
- » Does not stain, easy to wash off with salt water
- » Available 1.5kg
  - » 8 x 1.5kg packets per box
- » One liter of mixture covers an area of 12 - 15m<sup>2</sup>
