TO WHOM IT MAY CONCERN

Subject: Testing of Fire Extinguisher as per NTA 8133 Standard

We are pleased to confirm that the fire extinguisher model FBG, manufactured by FIREBLOCK GLOBAL of portable water-based type has demonstrated effective performance in extinguishing the lithium-ion battery fire test as per NTA 8133 test requirements (ignition procedure). This test was conducted and verified by FIRE TEST AND RESEARCH LABORATORY (FTRL), an independent and accredited testing facility.

The testing process adhered to relevant procedures and standards as outlined in the FTRL test report no. 20250002 dated 11/01/2025. This document is exclusively linked to the above referenced test report and the associated **FTRL Verified** logo, bearing the specific serial number SI. No. *FTRL-VR/103/20250002*.

Should you require additional documentation or have any further inquiries, please feel free to contact us at info@ftrl.in.

Thank you for your trust in our services.

With best regards,
